

THE POCHE WEEKLY RECORD.

VOL. XLVIII.

PIOCHE, NEVADA, THURSDAY, APRIL 28, 1898

NO. 17.

Arrow Shots.
Many people get up early and do nothing else all day.
Nobody likes a woman who eats more than a man.

How we admire people who live the same folks we do.

It takes a smart man to deceive a bright woman.
We wonder why so many peddlers have game legs.

Nine times out of ten a woman is prompter in paying a debt than a man.

Beware of a man who falls in love with every woman who smiles upon him for he is but a fool at heart.

It is surprising how many intelligent men waste time fooling with a gun.

Many men have an idea that they would become rich if they were not so liberal.

In speaking of the opposite sex men are apt to forget their mother was a woman.

You can generally tell a careful business man by the way he keeps his receipts for money paid out.

There is no fool like a man who makes a laughing stock of himself trying to make some woman jealous.

It is not the fellow who gets the biggest salary who makes the most money. It is the one who knows what to do with it.

A Sure Thing for You.
A transaction in which you cannot lose is a sure thing. Bitchiness, sick headache, furred tongue, fever, piles and a thousand other ills are caused by constipation and sluggish liver. Cascarets Candy Cathartic the wonderful new liver stimulant and intestinal tonic are by all druggists guaranteed to cure or money refunded. C. C. C. are a sure thing. Try a box to-day: 10c, 25c, 50c. Sample and booklet free.

Nevada.
Rev. F. L. Nash of Carson, writing to the Occident of San Francisco recently said: "Nevada is now a little one among the thousand of Israel, but when the question of irrigation is settled this condition of things will be reversed. With the the finest and most healthful climate in the world, boasting more sunny days than any State in the Union, with scenery as grand and magnificent as any on the continent, with people as true and precious as the gold and silver which abounds in our mountains, with opportunities for usefulness which an angel in heaven might covet, Nevada has a future of which she shall some day be proud."

Under new rules of the Land Office the annual work must be performed on every claim sought to be patented, for the year in which the entry is made. This has not been the case heretofore and final payment would be accepted by the Department up to the last day of the year, regardless of whether the assessment work for that year had been performed or not.

Notice.
The undersigned has been appointed agent of A. Mandich and all persons knowing themselves indebted to said A. Mandich will arrange to pay their claims to the undersigned and save costs.

M. Churich.
Pioche, April 12 1898.

Two Millions a Year.
When people buy, try, and buy again it means they're satisfied. The people of the United States are now buying Cascarets Candy Cathartic at the rate of two million boxes a year and it will be three million before New Year's. It means merit proved that Cascarets are the most delightful bowel regulator for everybody the year around. All druggists 10c, 25c, 50c a box, cure guaranteed.

"The general public," said Commodore Schley, evidently believe that the minutes war is declared we begin to shoot. The fact is, it might be many days after a declaration of war before we would be called upon for action.

A former chief of the United States geological survey has declared that the time is not far distant when a man may start out from Denver and travel to Klondike, stopping every night at a mining camp. There are two American stamp mills on the straits of Magellan, and the day is not far distant when a chain of mining camps will extend from Cape Horn to St. Michaels.

Since the trial of Sheriff Brookline of Douglas county for neglect of duty in the Ober lynching case, it has been discovered that three of the sheriff's bondsmen, D. B. Park, A. P. Squires and N. H. Johnson, were members of the jury which acquitted him.

Everybody Says So.

Cascarets Candy Cathartic, the most wonderful medical discovery of the age, pleasant and refreshing to the taste, act gently and positively on kidneys, liver and bowels, cleansing the entire system, dispel colds, cure headache, fever, habitual constipation and biliousness. Please buy and try a box of C. C. C. to-day 10c, 25c, 50c. Sold and guaranteed to cure by all druggists.

SALT LAKE AND RETURN.

Reduced Rates During April.

Conference, the Oregon Short Line will sell round trip tickets from all points at reduced rates. Tickets will be on sale from April 4th to 9th, inclusive, good for return until April 18th. The round trip from Frisco will be \$6.70 and from Milford \$6.00.

This is but one half the fares regularly charged.

PIONEER TENT NO 2 K. O. T. M.

Regular reviews Weekly on Monday at 8 p. m.

J. D. Campbell, Commander.
W. J. Campbell, Record Keeper.

Beauty Is Blood Deep.

Clean blood means a clean skin. No beauty without it. Cascarets, Candy Cathartic clean your blood and keep it clean, by stirring up the lazy liver and driving all impurities from the body. Begin to-day to banish pimples, boils, blotches, blackheads and that sickly bilious complexion by taking Cascarets, beauty for ten cents. All druggists, satisfaction guaranteed, 10c, 25c, 50c.

THE NEWSPAPER LAW.

All subscribers should read the following Law and Avoid Trouble.

1. All subscribers who do not give express notice to the contrary are considered wishing to continue their subscriptions.

2. If subscribers order the discontinuance of their periodical the publisher may continue to send it until all arrears are paid.

3. If subscribers refuse or neglect to take their periodicals from the office to which they are directed, they are responsible until they have settled their bills and ordered them discontinued.

4. Subscriber moving to other places without informing the publisher, and the papers are sent to the former address, they are held responsible.

5. The courts have decided that refusing to take periodicals from the office or removing and leaving them uncollected, is prima facie evidence of intended fraud.

6. If subscribers pay in advance they are bound to give notice at the end of the time they do not wish to continue taking it, and the subscriber will be responsible until an express notice with all arrears are sent to the publisher.

7. The latest postal laws are such that newspaper publishers can arrest anyone for fraud who take a paper and refuse to pay for it.

Under the law the man who allows his subscription to run along some time unpaid, and then orders the postmaster to mark it "refused" and have a postal card sent notifying the publisher, leaves himself liable to arrest and fine, the same as for theft.

Blind Girl a Successful Farmer.

There lives 20 miles from Oak Hill, Tex., a blind girl, Mary Ashby, who has from a few acres of land cultivated by herself, cleared about \$200 each season for several years by the growing and sale of vegetables. She began with no capital, and an unfenced piece of uncultivated land. There is now a neat fence about her domain, a well and a pump in the center, and she has, in addition to purchasing these, paid for a piano and a wagon to take her vegetables to market, which is 20 miles from her home. Every morning during the dry season she waters a certain number of plants until she has gone over the entire place, when she begins and goes over it again in the same way. The active sense of hearing which nature has given this blind girl in lieu of her sight enables her to detect insect life easily, and by feeling with her sensitive fingers she can distinguish the nature and size of the plants and vegetables she raises.—Louisville Dispatch.

Search Lights on Land.

The recent night attacks on British army posts in India have led to the suggestion that all such exposed military camps be provided with powerful electric search lights, like those used by war-ships. With bright beams playing over the surrounding country, it is argued, the danger of night attacks would be greatly diminished, and sentries and outlying pickets could be protected from the assassin, who, it is asserted, not infrequently stalks them like game and murder them in the darkness.—Youth's Companion.

He Had Two Hours Left.

A Hartford commercial traveler was in Danbury, Conn., the other night and on retiring left word with the hotel clerk to be called on time for the five o'clock train the next morning. He was awakened long before daylight by a vigorous banging at the door and a voice in response to inquiry as to whether the hotel was on fire, said: "I'm the watchman, and I'm going off duty. I thought I'd like to tell you that you have nearly two hours to sleep yet. It's about three o'clock."—Hartford Post.

Mushrooms and Kidneys.

In this case the mushrooms should be thick and deep, so that they can hold the following mixture safely: When the mushrooms are dressed and stalked, dip each into liquid butter which has been peppered and salted. Have ready as much seasoned and minced kidney and bacon as will fill the mushrooms, spread this forcemeat over smoothly and evenly, to make it of an oval shape, as on the under-sides of the mushrooms. Brush over with a beaten egg.—Woman's Home Companion.

Abnormal Geniality.

"What a friendly woman your wife is!"

"Friendly? I should say so; why, last week when the sheriff leveled on her piano and bicycle she made him a glass of ice cream."—Detroit Free Press.

EDUCATED WIVES.

A Teacher Says They Make the Best Companions.

Women of Higher Education Are Better Equipped for the Duties of Motherhood and Home Keeping.

The following extracts are from an address made by Miss Clara Bostwick, a teacher at the Elms school in Springfield, Mass.:

"What is the college woman's probability of happiness in marriage compared with that of her less highly educated sister? She chooses her husband later. She is more developed; she knows better what she is going to be; she stands in better chance of not selecting a life companion whose tastes and hers will prove helplessly antagonistic. And this is of especial importance in America, where girls and boys are thrown so freely together; where they marry when and whom they wish, and where the parents in many cases apparently have little else to do with the matter than to pay the bills and try to shield the young husband and wife from the consequences of their folly. The man whom a girl would have married when she entered college is probably not the man whom she would marry when she is graduated from college. This may result in the breaking of some early engagement, but an engagement that can be broken without better being broken. The college-bred woman is also less likely to marry from ennui. Even if she is unfortunate enough to have no definite work, after she leaves college, she has resources within herself which can not only prevent life from becoming a bore, but which can make it rich and satisfying. Neither will she be likely to sell herself for the sake of a home. She is better equipped to support herself, if necessary, and she has probably lost many silly ideas she may have had about the unlikelihood of honest, breadwinning work.

"Finally, when she has been won, she stands a much better chance of keeping her husband's love and respect, because she stands a better chance of interesting him.

"Men don't stay in their homes unless they find their homes entertaining, said a married woman of wide experience in the world, in talking about the education of her daughter. 'I tell my daughter that if she is ever to marry she needs to know something for two reasons: first to hold her husband's interest; and second, to have within her resources that will make her happiness, to a certain extent, independent of him; in which case he will be more likely to stay in love with her.'"

"The statistics in regard to the marriage of college women will not be complete until we have also the statistics in regard to their divorce. The statement has been made, whether true or not, that as yet no Vassar graduate has been divorced. Of course, all college women are not interesting, any more than are all college men; but the four years' companionship with 'noble thoughts' ought to make one at least less stupid.

"Make the educated woman with the educated man and you have a probability that they will continue to interest and love each other; that there will be intellectual companionship between them; and that each will have sufficient respect for the other's mental ability and moral sanity to make possible a government of the home and the children, not by 'managing' each other, keeping clear of each other, but by frank and fearless discussion as to what is reasonable and right. This is not the condition of affairs in most homes.

"The women of the higher education bring to motherhood, too, a better preparation than do those of smaller opportunities. The reasons for this are both physical and mental. They are, as a rule, older, physically mature; and the opinion is held by some physicians that, for the sake of the physical perfection of the race no woman should marry until she is 25. They have a wider knowledge of physiological and psychological laws—or they have the ability to acquire it—which must bring forth beneficent fruit in the rearing of their children. They know more profoundly the responsibilities of motherhood; and their realization of the importance of details in the training of a child disposes them to look upon what might seem drudgery to other women as glorified, educational opportunity."—Boston Advertiser.

The Trans-Mississippi and International Congress is composed of delegates from every State and Territory West of the Mississippi river. The idea of this exposition originated in that Congress at its session at Omaha in 1895, and the project has become a National enterprise and the National Commission has been organized and is in active service, there being one commissioner for each of the several departments of the Government. Most of the Trans-Mississippi States are well along in the way of gathering exhibits from their respective States and many of them have made liberal appropriations, while others are preparing exhibits through private enterprise.

Vice-President H. B. Maxson of Reno, has made arrangements whereby he can get Nevada exhibits shipped from any point in the State along the line of the C. P. R. R. to Omaha and return, and he requests all persons who wish the interests of the State advertised, to co-operate with the Exposition Commission.

whose name is shown above, and prepare some product of his county and send it to the nearest point on the C. P. R. R. from which place it will be sent to Omaha and exhibited, and returned to the same point at the close of the exposition, free of expense to the exhibitor. Full information should accompany everything sent for exhibition. Before sending anything to the line of the railroad a full description should be given to the Exposition Commissioner of the county, who in turn will notify the Vice-President, who will notify him what action to take, otherwise there might be many duplications. Apply to your County Representative for further information, and don't let this opportunity of advertising the resources of Nevada be lost.
